Specialty Coffee Association

Welcome to the SCA coffee community

The Specialty Coffee Association (SCA) is a growing membership association with thousands of coffee professionals and organizations in over 100 countries around the world.

We invite you to join...

...the thousands of other like-minded and dedicated individuals who believe in the same future for specialty coffee that you do. Together we will be an effective, dynamic, and authentic institution that gives voice and substance to the possibilities for specialty coffee worldwide. We will inspire, expand, and sustain the global specialty coffee community through shared beliefs and services. We are dedicated to building an industry that is fair, sustainable and nurturing for all. SCA is invested in our members and the communities we serve and believes that we are defined by the individuals who associate with us our members; it is our commitment to provide them with the support, knowledge, and practical tools that enable them to fulfill their potential.

SCA provides unprecedented access...

...to world leading services. With the addition of substantial cost savings and discounts, and access to exclusive business tools and resources, such as industry research reports and statistics, as well as networking events, seminars and workshops, being part of the SCA community ensures you and your business can gain a huge advantage.

What's in it for me?

Every membership package we offer is different, each offering a unique range of benefits to suit your requirements, but all our packages are designed to bring real benefit to you and your organization. Here are just a few reasons to join the SCA:

Get Connected

Events, exhibitions, cuppings and coffee tastings are just some of the networking opportunities on offer to our members at both the global and local level. Meet with thousands of coffee professionals and enthusiasts at our annual trade shows, or get together in more targeted networking groups at one of our smaller events so that you can connect with other professionals and create new long-lasting business relationships.

Get Educated

Attend a seminar or workshop, or train through our world leading educational program to further your professional expertise, for the benefit of your business, as well as your career. SCA's comprehensive training and education program takes novice coffee enthusiasts and helps turn them into professionals, as well as taking experienced professionals and turning them into industry leading experts. The courses offered focus on five core areas: Barista Skills; Brewing; Green Coffee; Roasting; and Sensory Skills.

Get Noticed

There are numerous advertising, editorial, sponsorship and exhibitor opportunities available that will help you raise brand awareness for your business.

Get Involved

Being part of the SCA community presents a great chance to get more involved, whether through sharing your expert knowledge by giving talks at some of our events, or volunteering your time and passion for specialty coffee as part of your local national chapter or guild or at SCA events.
